Experian today has moved far beyond its roots as a credit bureau. We have evolved into a global data, analytics and software company, solving complex problems across financial services, healthcare, automotive, marketing and beyond.

We help businesses redefine how lending works, spot fraud patterns others can't see, make healthcare payments simpler, and connect marketers with the right audiences in smarter, more effective ways.

At the same time, we are becoming an indispensable financial partner for consumers, helping millions of people take control of their financial lives, save time, unlock better outcomes, and achieve goals that once felt out of reach.

This is what 'powering opportunities' looks like. New products. Smarter platforms. Real-time decisions. And a relentless focus on people – not just data. Innovation drives us forward, and it's the reason we are excited about what comes next.

Certain financial data has been rounded within this presentation. As a result of this rounding, the totals of data presented may vary slightly from the arithmetic totals of such data.

Revenue, Benchmark EBIT growth and Benchmark EBIT margin are on an ongoing activities basis. EPS is on a continuing operations basis.

ROCE (Return on capital employed) = Benchmark EBIT less tax at the Benchmark rate divided by average capital employed, in continuing operations, over the period. Capital employed is net assets less non-controlling interests and right-of-use assets, plus/minus the net tax liability or asset and plus Net debt.
